My Hoopla is useful because it shows you what you have currently borrowed, recommends other items you may enjoy, any items on hold, your browsing history and items you've marked as one of your favorites.

Selecting something as a favorite saves the title to borrow later, keeps track of authors and lets Hoopla make better recommendations for you.

Download the App!

Hoopla offers a free app that can be found in your App store or Play store on your digital device. In order to login you must enter in your email address and unique password for your account.

If you do not have an account yet, select **Sign Up**.

Once you are logged in you will be directed to **My hoopla**. From here you can see your currently borrowed items. You can also choose to see if you have any active holds or items you have marked as favorite.

Searching the Catalogue

You will always see the **Search** option at the bottom of the screen as you navigate through the app. This allows you to search within the catalogue based on author or title.

Note: We are not offering the music or video features at this time.

Checking Out

Once you have selected an item, you are given the option to either read or listen online without downloading it directly to your digital device. Downloading will allow you to use your item without needing direct Internet access.

It will also show your due date and if you want to return the item early at the bottom the screen.

Note: Items are automatically returned for you so you don't have to worry about and fines!
